comparison date 05/06/2018

The supply of stock almost halved the previous week's level and quality was mixed across all classes. Buyer attendance was generally good with representatives covering most categories. Young light weight cattle to restockers or background lifted in price however some of the improvements were attributed to the better quality available. Medium weight yearling steers to feed experienced very little change in price. A lift in the standard of the small number of bullocks penned saw average prices improve by over 20c/kg. The improvement in export slaughter lines also flowed onto the cows with the better end of the cows averaging 4c/kg dearer.

Steer calves returning to the paddock made to 263.2c to average 257c/kg. The occasional well-presented vealer heifer made to 254.2c/kg. Light weight yearling steers sold to restockers at an average of 252c with some to 268.2c/kg. Medium weight yearling steers to feed averaged 251c and sold to 260c while a small selection of heavy weights to feed averaged close to 248c/kg. Light weight yearling heifers averaged 219 and made to 223.2c/kg. A single B muscle medium weight yearling heifer sold to the trade at 299.2c/kg.

Bullocks made to 271.2c to average 267c and full mouth bullocks averaged 240c/kg. Medium weight poor condition cows average 132c and the better 3 scores averaged 188c/kg. Good heavy cows made to 207.2c with most around 203c/kg. Heavy bulls made to 232.2c/kg.

Bulls made to 252.20 kg.					Live Weight c/kg				Estimated Carcase Weight c/kg			Estimated \$/Head
