Yarding 1730

comparison date 18/06/2019

Change 181

The supply of stock lifted by 181 head to 1,730, and once again a large number of mixed quality cows were penned. Buyer attendance was generally good and most were operating. Drought affected light weight young cattle were hard to sell, and light weight yearling steers to restockers averaged 11c cheaper, while the heifer portion eased approximately 20c/kg. However, medium and heavy weight yearling steers and heifers sold to strong demand for the quality penned. Despite the large number of cows available, export and restocker buyers were able to absorb the large supply, lifting average prices by 8c to 9c on the plain condition classes, and up to 20c/kg on the good heavy cows.

Light weight yearling steers returning to the paddock averaged 218c, with occasional sales to 258.2c/kg. Medium weight yearling steers to feed averaged 263c and made to 278.2c/kg. Heavy weight yearling steers to the trade made to 315.2c, with majority close to 287c/kg. Light weight yearling heifers averaged 186c and made to 199.2c, and the poor quality lines made 132c/kg. Medium weight yearling heifers to the trade averaged 252c and made to 280.2c/kg.

Heavy grown steers to export process made to 302.2c, while an outstanding grown heifer made to 299.2c/kg to return \$2,109/head. A fair sample of poor condition cows sold to restockers at an average of 159c, with sales to 172.2c/kg. Medium weight 2 score cows to processors averaged 177c and made to 187.2c/kg. Good heavy cows made to 235.2c, with most close to 224c/kg. Heavy bulls made to 257.2c/kg.
