

McDougall & Sons Pty Ltd Sheep and Lamb Report

11/12/19

The end draws near with the penultimate sale for the 2019 year happening with 2310 head to meet the market. The yarding was the epitome of how this drought is affecting the rural economy. The yarding consisted of more than usual yarding of light and drought affected stock. The growers to their credit have done well to last this far in an ever increasing spiral of no feed and water to promote growth in the livestock on hand. Lambs today topped at \$210 to average \$109.61(\$2 up on last week), hoggets topped at \$155 to average \$96.94(\$16.50 down), ewes topped at \$130 to average \$53.45(\$11 down) , wethers topped at \$140 to average \$48.98 (a \$15 drop). The yarding was dominated by the light store and feed on types in both mutton and the lams available. The only shining light is for the growers presenting a quality market item in the trade and butcher types.
