

Mcdougall & Sons Pty Ltd Sheep and Lamb Report 18/11/2020

Agents today yarded 1393 head to the weekly sale with an influx of numbers we saw the only thing up for the day was the yarding. All categories suffered in the falls with the yarding averaging a \$20 drop. The lambs were stronger for the processor types and the export lambs with lambs today topping at \$216 to average [\\$157.09](#)(\$26down), hoggets topped at \$192 to average [\\$132.02](#)(\$15down), ewes topped at \$200 to average [\\$127.22](#)(\$15down), wethers topped at \$160 to average [\\$132.21](#)(\$11down), lamb rams topped at \$201 to average [\\$163.91](#)(\$2up). The market was hesitant to chase the feed on lambs unless they were young and fresh and the better types of breeds. The market had a larger number of the Damara x lambs in the market today. Good types of feed on Dorper and Xbred lambs were still keenly sought after. The Mutton numbers were down but the heavy end was still attractive for both buyer and seller.
