### Sheep and Lamb Report 20/10/2021

Agents today yarded 1628 sheep and lambs for the weekly sale. The two main export avenues were not operating which had an impact on the mutton and heavy weight lamb end of the market. The local operators were to the fore with the butchers lambs keenly sought after in a market dominated with light lambs just weaned, as well as a few lines of Merino lambs. The good trade and butcher lambs as well as boutique orders of mutton as well as back to the paddock buyers helped the fact of two main buyers not operating.
