### **Sheep and Lamb Report 6/4/2022**

Agents again had a rain affected yarding for the weekly sale with only 664 head making it to the yards. Some vendors were cursing trying to yard them as they had to pull vehicles from the bog. The yarding was mainly made up of lambs on the lighter side , mainly stores and lambs showing the effects of the wet weather. Good ewe lambs were keenly sought after as well as good processing lambs. The smaller numbers limited the export processors participation. Re-stockers and feed on buyers kept the market firm. Lambs topped at \$215 to average \$170.02(\$7down),hoggets topped at \$188 to average \$184(\$16up),ewes topped at \$175 to average \$86.99(\$42down), wethers topped at \$180 to average \$133.22(\$30down), lamb rams topped at \$185 to average \$133.38 (Par), the total yarding of 664 head averaged \$160.23 a drop of \$5/ head week on week.
